

TECHNICAL DATA SHEET

DESCRIPTION

Lubrimatic MV is a synthetic multi-vehicle transmission fluid formulated from premium quality components to obtain exceptional performance in intensive service.

The versatility of this product allows the use of a single product for a range of North American, European and Asian transmission manufacturers, thereby reducing application errors and reducing inventory.

Lubrimatic MV has excellent low temperature characteristics allowing for better cold weather starts. We also paid particular attention to thermal degradation, resistance to oxidation and prevention of varnish formation.

Lubrimatic MV also protects transmissions against wear and corrosion while providing smooth gear changes and eliminating vibration in the clutch.

TYPICAL PROPERTIES

| | |
|------------------------------------|------|
| Density at 15°C, g/cm ³ | 0.86 |
| Flash point °C | 210 |
| Pour Point °C | -48 |
| Viscosity cSt at 40°C | 34.0 |
| cSt at 100°C | 7.63 |
| Viscosity Index | 202 |
| Color | Red |

Lubrimatic MV is suitable for the following specifications

| | |
|---|---|
| Aisin Warner JWS 3309 Mobil 3309; JWS 3317; Saab 3309 | Hyundai/Kia JWS 3317 |
| Allison C-4 | Hyundai/Kia SP-II Isuzu Besco ATF-SP |
