

## TECHNICAL DATA

### SHEET

### DESCRIPTION

Lubri Delta's LUBRI-THERM is recommended as a heat transfer fluid in close and open systems for all kinds of indirect heating and cooling industrial processes where temperatures do not exceed 315°C.

Blended from first quality paraffinic base oils and additives carefully selected to enhance the oxydation stability, protection against rust, steel and cup corrosion and to prevent foaming.

The high thermal conductivity and low viscosity of this product assure a good heat transfer and pumping cost economy.

### TYPICAL PROPERTIES

GRADE	32	68
Viscosity cSt at 40°C	32.0	70.2
cSt at 100°C	5.2	9.1
Viscosity index	105	105
Flash point °C	225	245
Pour point °C	-12	-10
