

TECHNICAL DATA

SHEET

DESCRIPTION

The PARTS CLEANER is a portion of mineral spirits having a solvent power and an evaporation rate appropriate to mineral spirits, permitting to substitute it to Stoddard solvent. It has a low odour.

RECOMMENDED USES

It is principally recommended as a cleaner for oily and greasy parts. We can also use it as a paint thinner.

TYPICAL PROPERTIES

Density at 15 ⁰ C (kg/l)	0.79
Flash point ⁰ C, Tag closed cup	45
Aniline point ⁰ C	55
Kauri-butanol index	38.0
Aromatics % V/V	16.0 max
